CANTILEVERED TUBULAR SHELVING KITS ALUMINUM CONSTRUCTION

Channel's broad selection offers the best solutions for your applications.

IMAGE SHOWS FOUR DIFFERENT SHELVING STYLES: SOLID, TUBULAR, E-CHANNEL AND T-BAR

- Cantilevered Tubular Kit provide ease of ordering by including all required components: tubular style shelves, (1) left upright, (1) right upright and (1) set of cross supports and hardware.
- Heavy-Duty, extruded, high tensile strength aluminum construction.
- "Cantilevered" design allows for ease of use, increased storage capacity, improved efficiency and unobstructed shelf access.
- Shelves adjustable in 10" increments (without the use of tools). Additional shelves available with a maximum capacity of seven shelves per unit.
- Lifetime guarantee against rust.

- The above dimensions represent the footprint of the assembled shelving unit for each respective shelf KIT.

- When "banking" cantilevered shelving units side-by-side, and using a common upright (item CSURC):

- add an additional 1¹/₂" to the footprint width for each common upright used.

- For the usable dimensions of each shelf, subtract 1¹/₂" from the width and 1¹/₂" from the depth of the dimension in the above chart.
